Nourishing Lives

Tasty food at school!

Asin, a deaf and blind child by birth, is an orphan abandoned by everyone. He was found on the streets of Bangalore in 2014 by volunteers of Mathru deaf-blind project run by Mathru Trust for blind.

Asin was malnourished, unhealthy and was unable to concentrate even in his studies. Mathru took care of him and got the required medical care. Rise

Against Hunger India began supporting Mathru with RAHI meals since two years. Asin loved the meal from the time he began to have it. He eagerly waits for the day RAHI meals are served. Asin is healthy and active now and his physical and cognitive development has improved immensely. He is participating in all the activities in school and is very happy.

The caregivers find that the tasty nutrition packets provided by RAHI which is a carefully compiled diet of essential and seasonal vegetables, minerals and vitamins helps the children stay active and healthy while reducing their risk of falling sick.

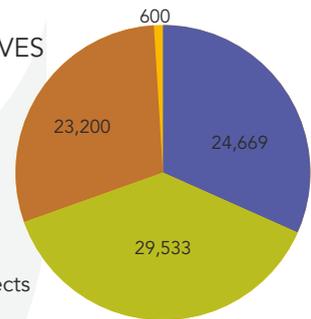

Our Program Activities

1. Mid-day meals, provision of food and nutrition for children.

2. Provision of Complan, food supplements and Milk.
3. Medical clinics - Medical health unit in Kerala during the floods.
4. Meals for the elderly, physically and mentally challenged, pregnant mothers and others.

NOURISHING LIVES
Lives Nourished

- Meals
- GiK Support
- Disaster Relief
- Community Projects

Our meal packages mainly benefit children and people from various old age homes, orphanages, child shelter homes, schools, slums, community centres and patients suffering from different ailments.

Emergency support is provided by sending meals to the affected areas with Gift-in-kind like water filters, hygiene kits and household items.

Our Hunger Champions!

The number of Hunger Champions we could reach out to and engage this year nearly doubled!

Out of 30,046 Hunger Champions with whom we have packaged meals so far 11,836 joined us this year!

Hunger Champions are not just packaging meals, Hunger Champions are changing lives, one meal at a time! And we could never do this without YOU!

Future Plans

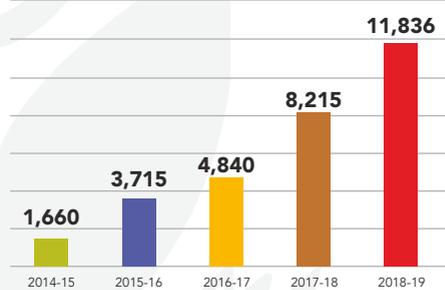

In 2019, our target is to increase regular recipients by 20% and engage at least 15,000 Hunger champions in packaging.....

4 Million Meals.

Strengthening Communities

We work with rural communities on agriculture, income-generating initiatives, improving farming systems, water, sanitation, hygiene (WASH) and by providing gifts in-kind aid.

Sustainable Agriculture

In western Odisha, drought has been a regular phenomenon since the 1990s. Due to climate change, farmers have been left to the mercy of rains..... which have become very irregular. In this scenario there is a need for the farming community to understand intricacies of climate change and adapt to the changing conditions. In this critical scenario, RAHI partnered with Ahinsa Club, a local organization which has been working with farmers to help them get access to critical information about government services on crop improvement, farming technologies and credit. Six hundred farmers have been trained in issues relating to climate change and sustainable agriculture through vegetable cultivation. The project creates a

platform for the farmers and other stakeholders to discuss challenges and develop a joint action framework to build an enabling environment for farmers to access opportunities and resources.

Satyabama Putel, from Kushmel village, a women farmer was one of the beneficiary. She took to sustainable organic vegetable cultivation and was immensely benefitted by the training and inputs that she got. She says, earlier with an investment of Rs. 20,000 on one acre of land gave them returns of about 30,000. With the use of organic inputs and lessons learnt in the training, the ROI increased to Rs.45,000 with the same investment. Almost a hundred-fold increase.

Future Plans

With the success of the first year, we plan to scale up over the next four years with 500 farmers and their families, impacting a total of 2,500 beneficiaries.

Disaster Relief

Flood Response - Kerala

In the Kerala floods, nearly 7000 houses were destroyed, 56,439 hectares of agricultural produce lost, and 16,000 kilometres of roads were damaged. Out of 1554 villages, 774 were inundated.

- With the support from corporate partners like Forever Living Products [FLP], Western Digital [WD], NetApp, Adobe, Times Foundation, Kraft & Heinz and other institutions like NMIMS, packaged 4,31,422 meals and sent to Kerala to support 2000 families.
- 300 family support kits consisting of essential household items like utensils, toilet kits, water containers, daily wear clothes, bedsheets, bedcovers, footwear, blankets, hygienic kits and water bottles were distributed.

- Installation of RO plant benefitting 600 families in Cherukara village.
- Provision of 20 fishing nets, 11 motor boats for fishermen.

Sunil from Cherukara village lost all his belongings, including his fishing boat in the floods. The boat was his sole source of livelihood. He was helpless and was worried about the future. With the motor boat given by RAHI, Sunil is back to work.

Future Plans

At RAHI, we are currently working on disaster preparedness processes and documentation to help us adhere to standardised and effective emergency response plan.

Drought relief - Odisha

• Relief from Sunstrokes and Dehydration

RAHI has been doing its bit to save people from dehydration and sunstrokes which are a common occurrence in Odisha in summer. During the acute summers, Kraft Heinz has been supporting Rise Against Hunger India to provide Glucon D Am Panna, Orange & Lime in Puri District since 2015.

This year too, 14,11,624 people (48,842.3 kg of Glucon D mix drinks) in Districts of Bargarh and Balangir region were saved from dehydration and sunstrokes from April to June 2018.

Water Counters

To address the issue of safe drinking water, RAHI supported running of 'water counters' and 'chahalas' (Open water points for animals). Twenty such water counters and chahalas were put up in Bargarh and Balangir region.

• Jal Seva - Campaign on water usage and hygiene

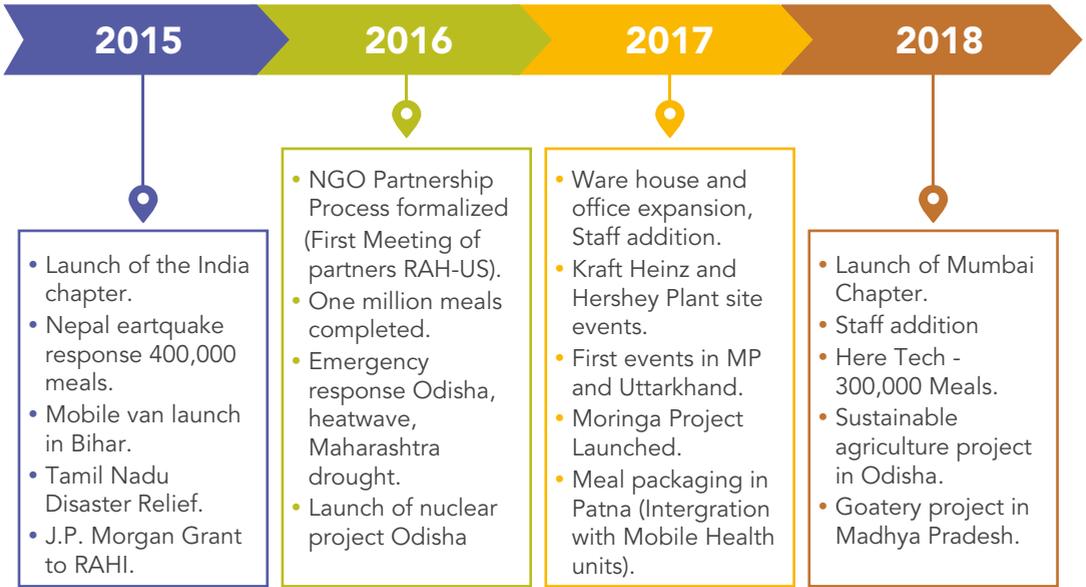

Rise Against Hunger India, in collaboration with Astha and Ahinsa club in April 2018, began a campaign - 'Jal Seva' on water usage and hygiene.

Training on chlorination, water use and hygiene; and health check-ups were conducted as well as Glucon D was distributed.

About Us

Rise Against Hunger India, formally known as stop hunger now India, started in 2015 as a result of increased interest and support by corporate partners to engage in our meal packaging program. Our mission is to end hunger in our lifetime by providing food and life-changing aid.
